## EDUCATION

Thadomal Shahani Engineering College

11 2022 – 11 2026

BE - Avg CGPA - 9.4

Mumbai, India

## SKILLS

- HTML
- CSS/TailwindCss
- Javascript
- React
- Artificial Intelligence
- Node.js
- MongoDB
- SQL
- Python
- C/C++

## PROJECTS

### Chat App ↗

- Developed a feature-rich chat application using the MERN stack, incorporating JWT and token-based authentication. The application enables real-time messaging, along with image and video sharing functionalities, providing a comprehensive communication platform for users.

### Food Delivery Website ↗

- Built a comprehensive food delivery website with a user-friendly interface using the MERN stack. The website features an admin panel that allows administrators to add and manage food items. Integrated a dummy payment system using Stripe to simulate transactions. Users can add items to their cart, view cart contents, and proceed to checkout, enhancing the overall user experience.

### Codefix Quiz Application ↗

- Developed an intuitive quiz application aimed at beginner students to help them practice and improve their programming skills in languages such as C++ and Java. The application features a user-friendly interface that facilitates easy navigation and an enjoyable learning experience. It includes a variety of question types, such as multiple-choice and coding challenges, to cater to different learning styles.

### YouTube Clone ↗

- Developed a YouTube clone leveraging the Google YouTube API to replicate the core functionalities of the original platform. This project includes features such as video search, playback, and dynamic content loading. Users can search for videos, view details, and play them directly within the application. The clone also supports user interactions like likes, comments, and subscriptions.

## SOFT SKILLS

- Ability to work in a team
- Adaptability
- Leadership
- Problem Solving Skills
- Eager to learn new Skills
